Professional Summary

Passionate Artificial Intelligence & Data Science student with hands-on experience in Android and full-stack web development. Built multiple real-world applications using React, Node.js, Kotlin, Supabase, PostgreSQL, and modern web technologies. Seeking a part-time App Developer Internship where I can contribute, learn, and grow as a software engineer.

Education

B.E. Artificial Intelligence & Data Science, *P.S.R.R. College of Engineering*

Expected Graduation: _____

Technical Skills

- HTML, CSS, JavaScript, TypeScript
- Node.js, Express.js
- Supabase, PostgreSQL
- Git & GitHub
- React, Vite
- Kotlin, Android SDK
- Socket.IO

Projects

TimeLock

Digital time capsule platform with secure authentication, gamification, virtual pet, and mobile support. Tech: React, TypeScript, Supabase, PostgreSQL, Capacitor.

CyberHub

Real-time anonymous chat application with password-protected rooms using React, Node.js, Express.js, and Socket.IO.

Nexora

Android productivity app featuring Smart Nearby Detection, Auto Silent Mode, AI Notes, and Instant Calculator using Kotlin and Android SDK.

AI Prediction Platform

Experimental AI project with 16,000+ lines of code exploring machine learning, reinforcement learning, and decision-making systems.

Certifications

Introduction to Kali Linux

Basics

Simplilearn

Introduction to Python OpenCV
